

1 The questionnaire

Instructions:

We appreciate your interest in our research. Before participating in this study, you should carefully read the following information. The information below explains the purpose of the study and how we will handle the information you provide.

Purpose of the study:

This survey aims to evaluate an application designed to identify and resolve multiuser conflicts in cloud-based systems such as Google Drive. The main goal of the study is to measure the acceptability and usefulness of the resolutions proposed by the application.

Do I have to participate?

It is entirely voluntary to participate. You should only participate if you want to and not participating will not negatively impact you. If you choose to participate, we will ask for your consent. Therefore, we will ask you to indicate that you have read and understood the information provided and that you consent to your responses being anonymously used as explained.

The data we collect:

We do not collect any personal information, however, the survey software uses cookies to keep track of your progress. We only collect your Prolific ID and your responses to the questions.

Data Usage:

All data collected in this study will be used only for research purposes. Any personally identifiable information will be anonymized and combined with other project data. It may well be used in future academic work, including publication of research findings. This data will not be shared or sold with anyone outside the project.

Remove your data:

In the event that you wish to withdraw from the study at any time within two weeks of completing this survey, your data will be removed immediately. To remove yourself from the study, simply send us an email with your Prolific ID and a message to our address. It is important to note that after two weeks of participating in this study, your data will have the Prolific ID removed, which will make it impossible for us to identify your data as it will become completely anonymous, which will make it impossible for us to delete your data. By clicking the "I consent, begin the study" below, you are acknowledging that your participation is voluntary, that you have reached the age of 18, and that you are aware that you have the right to terminate your participation at any time and for any reason. Please e-mail us if you would like to contact a member of the research team to discuss this survey or withdraw from this study. NB: This survey will be best displayed on a laptop or desktop computer. Some features may be less compatible for use on a mobile device.

Introduction to ACCORDS:

In today's fast-paced world, cloud-based systems like Google Drive have transformed the way we collaborate, enabling us to create, share, edit, and even delete shared files and folders. This results in increasing productivity, easy accessibility, and centralised storage. However, working concurrently with multiple users can lead to potential conflicts between users. For instance, a collaborator may add a member, delete, or deny access to a shared folder without obtaining the consent of other members within the folder. Therefore, we developed ACCORDS, the innovative Action Constraint-based Conflict Resolution and Detection System. It is a cutting-edge tool that assists users in a cloud system by detecting, and resolving conflicts that arise due to limitations of cloud systems. ACCORDS allows users to insert fine-grained permissions to what is supported by cloud systems that monitor and detect conflicting actions as they occur, ensuring seamless collaboration. For example, imagine a file owned by Alice and shared with Bob. To prevent Bob from sharing it further with someone else, Alice can effortlessly use ACCORDS to add a fine-grained permission on Bob, restricting him from adding a new member. When Bob adds a new member, ACCORDS identifies this as a conflict and promptly alerts Alice. Additionally, ACCORDS will provide Alice with solutions to resolve the conflict: for this conflict, ACCORDS will remove the newly added person, and ACCORDS will restrict Bob who made the unauthorised addition.

- Before completing this survey, please watch the video. It provides an overview of how ACCORDS works.

- The following are all 15 scenarios of our study.

1)

Assume that you and your family members have a shared folder on Google Drive. You were unhappy when one of your **family members added** their friend to the shared folder, because **you lost your privacy** as you had some personal files in it. ACCORDS detects the action performed by your family member and provides resolutions.

- Considering the given scenario, on the scale of 1 to 5, how would you rate the acceptability of the following resolutions?

	Completely Unacceptable	Somewhat Unacceptable	Neutral	Somewhat Acceptable	Completely Acceptable
- ACCORDS will notify the owner about the newly added person and explain why this action caused a conflict.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will remove the newly added person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restrict the person who made the unauthorised addition of permission addition.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Considering the given scenario, on the scale of 1 to 5, how would you rate the effectiveness of the following resolutions?

	Completely Ineffective	Somewhat Ineffective	Neutral	Somewhat Effective	Completely Effective
- ACCORDS will notify the owner about the newly added person and explain why this action caused a conflict.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will remove the newly added person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restrict the person who made the unauthorised addition of permission addition.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

2)

Assume that you and your friends have a shared folder on Google Drive. You were unhappy when one of your **friends added** their friend to the shared folder, because **you lost your privacy** as you had some personal files in it. ACCORDS detects the action performed by your friend and provides resolutions.

- Considering the given scenario, on the scale of 1 to 5, how would you rate the acceptability of the following resolutions?

	Completely Unacceptable	Somewhat Unacceptable	Neutral	Somewhat Acceptable	Completely Acceptable
- ACCORDS will notify the owner about the newly added person and explain why this action caused a conflict.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will remove the newly added person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restrict the person who made the unauthorised addition of permission addition.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Considering the given scenario, on the scale of 1 to 5, how would you rate the effectiveness of the following resolutions?

	Completely Ineffective	Somewhat Ineffective	Neutral	Somewhat Effective	Completely Effective
- ACCORDS will notify the owner about the newly added person and explain why this action caused a conflict.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will remove the newly added person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restrict the person who made the unauthorised addition of permission addition.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3)

Assume that you and your co-workers have a shared folder on Google Drive. You were unhappy when one of **co-workers added** someone you do not know to the shared folder, because **you lost your privacy** as you had some personal files in it. ACCORDS detects the action performed by the co-worker and provides resolutions.

- Considering the given scenario, on the scale of 1 to 5, how would you rate the acceptability of the following resolutions?

	Completely Unacceptable	Somewhat Unacceptable	Neutral	Somewhat Acceptable	Completely Acceptable
- ACCORDS will notify the owner about the newly added person and explain why this action caused a conflict.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will remove the newly added person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restrict the person who made the unauthorized addition of permission addition.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Considering the given scenario, on the scale of 1 to 5, how would you rate the effectiveness of the following resolutions?

	Completely Ineffective	Somewhat Ineffective	Neutral	Somewhat Effective	Completely Effective
- ACCORDS will notify the owner about the newly added person and explain why this action caused a conflict.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will remove the newly added person.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restrict the person who made the unauthorised addition of permission addition.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

4)

In Google Drive, assume that you and your family members have a shared folder that contains some of your personal files. You were unhappy when one of your **family members removed** your access to the shared folder, because **you lost access** to your files. ACCORDS will detect the action performed by your family member and provides resolutions.

- Considering the given scenario, on the scale of 1 to 5, how would you rate the acceptability of the following resolutions?

	Completely Unacceptable	Somewhat Unacceptable	Neutral	Somewhat Acceptable	Completely Acceptable
- ACCORDS will notify the owner about the unauthorised removal of a permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restore the removed permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Considering the given scenario, on the scale of 1 to 5, how would you rate the effectiveness of the following resolutions?

	Completely Ineffective	Somewhat Ineffective	Neutral	Somewhat Effective	Completely Effective
- ACCORDS will notify the owner about the unauthorised removal of a permission.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restore the removed permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5)

In Google Drive. Assume that you and your friends are working collaboratively on a university project. You were unhappy when one of your **friends removed** your access to the shared project, because **you could not work** on the project as you lost access to the project. ACCORDS will detect the action performed by your friend and provides resolutions.

- Considering the given scenario, on the scale of 1 to 5, how would you rate the acceptability of the following resolutions?

	Completely Unacceptable	Somewhat Unacceptable	Neutral	Somewhat Acceptable	Completely Acceptable
- ACCORDS will notify the owner about the unauthorised removal of a permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restore the removed permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Considering the given scenario, on the scale of 1 to 5, how would you rate the effectiveness of the following resolutions?

	Completely Ineffective	Somewhat Ineffective	Neutral	Somewhat Effective	Completely Effective
- ACCORDS will notify the owner about the unauthorised removal of a permission.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restore the removed permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6)

In Google Drive. Assume that you and some co-workers are working collaboratively on a project. You were unhappy when one of your **co-workers removed** your access to the shared project, because **you could not work** on the project as you lost access to the project. - ACCORDS will restore the removed permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

- Considering the given scenario, on the scale of 1 to 5, how would you rate the effectiveness of the following resolutions?

	Completely Ineffective	Somewhat Ineffective	Neutral	Somewhat Effective	Completely Effective
- ACCORDS will notify the owner about the unauthorised removal of a permission.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will restore the removed permission	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS does nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7)

In Google Drive, assume that you and your family members have a shared folder that contains some of your personal files. You were unhappy when one of your **family members changed** one of your personal file locations to sub-folder from the main folder, because **you lost access** to your file as you could not find it. ACCORDS will detect the action performed by your family member and provides resolutions.

- Considering the given scenario, on the scale of 1 to 5, how would you rate the acceptability of the following resolutions?

	Completely Unacceptable	Somewhat Unacceptable	Neutral	Somewhat Acceptable	Completely Acceptable
- ACCORDS will notify the owner about the unauthorised move.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
- ACCORDS will move the file back to its original location.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
